SUMMARY

Full-stack developer with strong problem-solving skills and experience building scalable web and mobile applications. Proficient in Java, JavaScript with a solid foundation in data structures, algorithms, and backend architecture. Skilled in developing secure APIs, optimizing database performance, and delivering production-ready systems.

TECHNICAL SKILLS

Languages: Java, JavaScript

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Frontend: React.js, JavaScript (ES6+), Bootstrap,

Databases: MongoDB, SQL

AI & Architecture: Prompt Engineering, LLM APIs

DevOps & Tools: Git, GitHub, Docker, Cloudinary

PROJECTS

Lost & Found: Item Reporting and Claim Management Platform | <https://lost-and-found-emps-jrc1.vercel.app/> Apr 2026 – Present

- Built a full-stack MERN platform for lost/found item reporting, smart item matching, claim verification, and admin moderation with role-based access control.
- Implemented JWT authentication, protected routes, Redis-based OTP password reset with TTL expiration, and backend security using Helmet, HPP, rate limiting, and Zod validation.
- Developed modular Express.js APIs, MongoDB models, and Cloudinary based image upload workflows for scalable item and claim management.
- Engineered real-time notifications and automated email workflows for item matches, claim updates, and password recovery using Socket.IO and Nodemailer.
- Created responsive dashboards with analytics charts, claim management modules, debounced search, lazy loading, skeleton loaders, and optimized loading states for improved UX and performance.

DSA Mentor: AI-Powered Data Structures & Algorithms Assistant | <https://dsa-instructor-8q3k.vercel.app/> Jan 2026 – Mar 2026

- Built a full-stack AI-powered DSA learning assistant for solving coding and algorithmic problems.
- Architected a secure Node.js & Express backend with JWT-based authentication and protected routes.
- Designed user-specific chat history storage and retrieval using MongoDB with user-level data isolation.
- Integrated Gemini AI API for intelligent DSA explanations and real-time response generation.
- Engineered dynamic chat rendering with typing effect and session-based conversation management.

PROBLEM SOLVING

- Solved 300+ Data Structures & Algorithms problems on LeetCode.
- Strong in Arrays, Strings, Recursion, Binary Search, Hashing, Trees, and basic Dynamic Programming.
- Experienced in writing optimized solutions with proper time and space complexity analysis.

ACHIEVEMENTS

Secured **12th position** – **National-Level Hackathon**, Chandigarh University

- Advanced React | [Certificate](#)
- Principles of UX/UI Design | [Certificate](#)

June 2025

June 2025

EDUCATION

Bachelor of Technology in Computer Science, GLA University, Mathura — CPI: 7.18/10

Jun 2023 – Jun 2027

Intermediate, Cambridge Conv SCH, Powyan, Shahjhanpur, 64%

Apr 2020 – May 2022

High School, Nalanda Public SNIC, Bankagaun ,Lakhimpur Kheri,77%,

Apr 2018 – May 2020
